Radiator & Towel rail characteristics	46

We believe that heating should be an integral part of your home, not just for practical reasons but to transform your space into a comfortable and stylish area.

That's why we have introduced the new DESIGNLINE collection of special finishes and RAL colours. With colours and textures inspired by nature, DESIGNLINE adds luxury without affecting comfort.

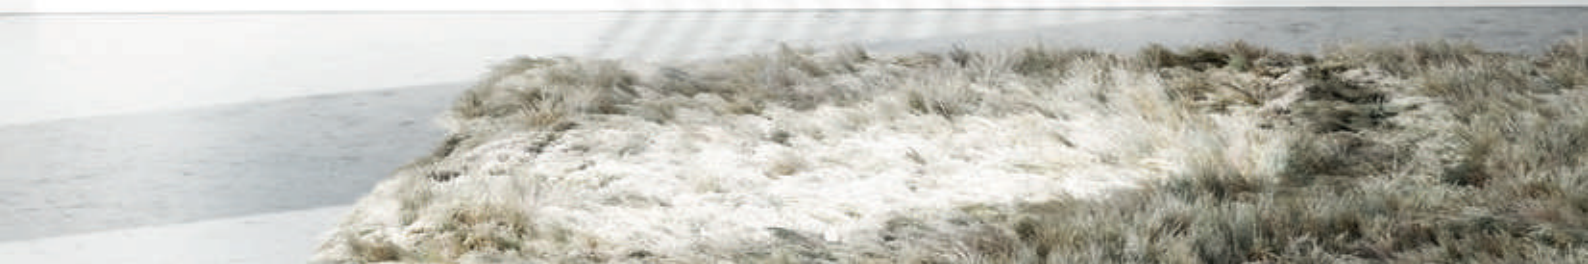

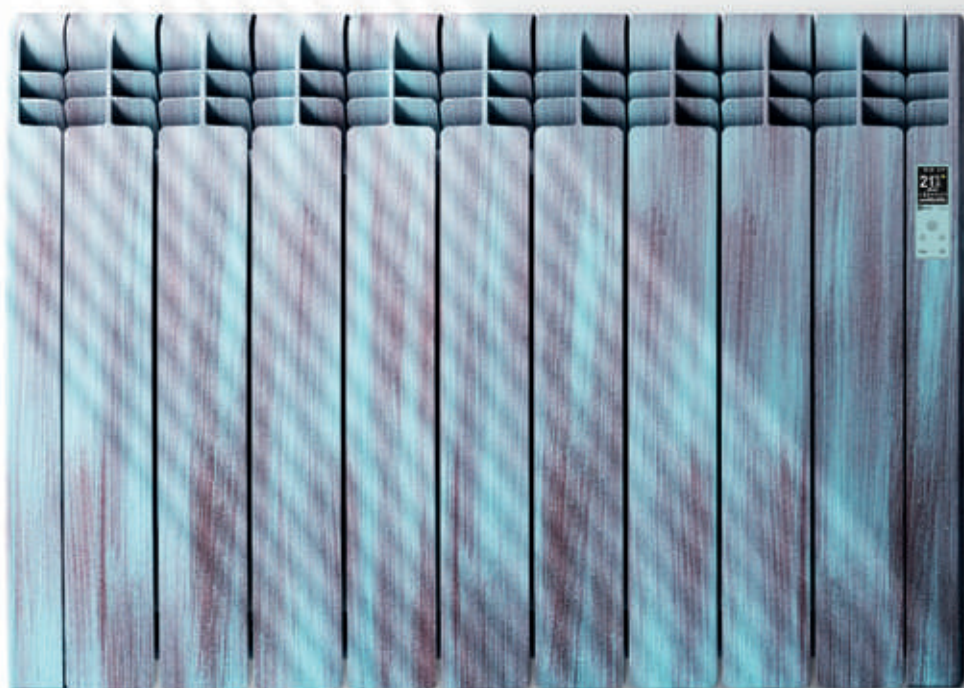

Through the use of metals and textures like gold, copper and marble, alongside colours like ruby reds and cool greys, we've created beautiful heating solutions designed with you in mind.

CHARACTERISTICS

DESIGNLINE D Series Radiator

- **Low consumption technology**

Designline D Series radiators feature Fuzzy Logic Energy Control technology, which saves energy and increases product efficiency.

- **Wi-Fi inside**

Wi-Fi module integrated in the electronics that allows the product to establish a direct connection with the router, which avoids using gateways or intermediate terminals.

- **TRP Consumption Meter**

The D Series radiators incorporate a True Real Power consumption meter that allows the Rointe Connect app to visualize the actual energy consumption of the product.

- **Touch control panel**

Sensitive tactile control panel made of high gloss methacrylate.

- **Smartphone control**

Rointe Connect app available for smartphone, tablet or PC. Allows products to be distributed in zones and subzones, control all their functionality remotely, program and set consumption limits.

- **TFT screen with customisable background colour**

1.77" high contrast screen that allows customisation of the background colour through the Rointe Connect application.

- **Body: 20 years guarantee**

Body manufactured with high purity aluminium with 20 years guarantee.

- **Electronics: 3 years guarantee**

Electronic components manufactured using SMD technology with 3 years guarantee.

TECHNICAL INFORMATION

Armoured steel heating element	✓
100% aluminium body	✓
Mineral, high heat transfer fluid	✓
Touch control panel in PC/ABS	✓
Fuzzy Logic Energy Control technology	✓
Wi-Fi Inside & E-life Technology: home automation	✓
TRP consumption meter	✓
Wi-Fi communication	✓
Temperature stability	±0.25°C
Air speed	< 0.1 m/s
Average surface temperature	43°C
Protection Grade	IP24

FUNCTIONS

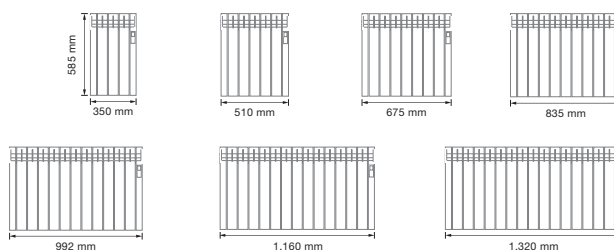

Anti-frost / Comfort / Eco / User mode	✓
Manual / Automatic functions	✓
TFT screen with customisable colours	✓
Open Windows function	✓
24/7 programming	✓
Compatible with Alexa voice assistant	✓

INSTALLATION

Template & installation kit	✓
-----------------------------	---

REGULATIONS & GUARANTEES

2004/108/CE Electromagnetic comp.	✓
2006/95/CE Low voltage directive	✓
UE 2015/1188 ECODESIGN (ERP)	✓
Guarantee on the aluminium body	20 years
Guarantee on the electronics	3 years

*In tests performed by independent laboratories (under the same parameters), a radiator with Fuzzy Logic Energy Control technology and another with Optimizer Energy Plus were compared. A difference in energy consumption of 6.3% was obtained. This saving allows the radiators with Fuzzy Logic Energy Control to use an average power of only 38% of the nominal power. We define this as the equivalent consumption coefficient. If we multiply the nominal power by the equivalent consumption coefficient, we obtain the effective power.

CHARACTERISTICS

DESIGNLINE D Series Towel rail

- **2H Boost function**

Allows you to keep the towel rail in continuous mode (regardless of thermostat reading) for 15, 30, 60 or 120 minutes to provide maximum heat consistently.

- **Wi-Fi inside**

Wi-Fi module integrated in the electronics that allows the product to establish a direct connection with the router, which avoids using gateways or intermediate terminals.

- **TRP Consumption Meter**

The D Series radiators incorporate a True Real Power consumption meter that allows the Rointe Connect app to visualize the actual energy consumption of the product.

- **Touch control panel**

Sensitive tactile control panel made of high gloss methacrylate.

- **Smartphone control**

Rointe Connect app available for smartphone, tablet or PC. Allows products to be distributed in zones and subzones, control all their functionality remotely, program and set consumption limits.

- **TFT screen with customisable background colour**

1.77" high contrast screen that allows customisation of the background colour through the Rointe Connect app.

- **Body: 10 years guarantee**

Body manufactured with high-quality steel with 10 years guarantee.

- **Electronics: 2 years guarantee**

Electronic components manufactured using SMD technology with 2 years guarantee.
