Installation Manual for Herschel far infrared heaters

Assembly Kit

Please check the enclosed assembly kit.

The assembly kit consists of:

2x fixing brackets

8x screws

8x wall plugs

Step 1

Mark the eight drilling holes on to the intended installation site

Step 2

Drill holes into the installation site on the marked places and then place the wall plugs in to the drilling holes.

Step 3

To fix the included fixings brackets to the installation site turn the screws in as far as possible through the grooves of the fixing brackets into the wall plugs (see fig 1).

Fig 1.

Step 4

Before placing your Herschel far infrared heater panel on to the fixing brackets please check that the four distance pieces on the rear of the far infrared heater panel are screwed in as far as possible.

Step 5

Now fit the far infrared heater panel on to the two wall holders (see fig 2).

Fig 2.

Step 6

Unscrew the four distance pieces on the rear of the far infrared heater panel so that the panel is fixed securely to the wall and cannot be removed.

Step 7

Please check that your Herschel far infrared heater cannot be removed from the wall.

Removal

Screw the four distance pieces so that your Herschel far infrared heater panel can be removed from the fixing brackets and taken down from the installation site.

Warmer, longer for less – the future of heating – today
